Do you think these are the PASPA slides I sent out to cabinet? I thought they were pretty even and gave some credibility to Damsker's guidance on three feet. Sultanik definitely conflicts with mask requirements though. I'll explore more....

Just off the phone with Jeff Sultanik, a lawyer whose Blue Bell firm reps numerous school districts, QCSD included on retainer. He is known to be the toughest contract negotiator in the state. Forecast5 has sponsored him on Thursday mornings on various COVID-19 topics. This past Thursday he had Dr D's recommendation up on 4-5 slides. He ripped Dr D apart and said he was setting districts up for legal issues down the road. Sultanik's slides are on his website some where. I have not seen them. Anita attended for us. My summary from today's chat with him is if districts adopt the limited minimalist precautions Dr D recommends districts will have legal issues when their first COVID positive strikes.

Colleagues,

Following up on an action item from our meetings this past week:

Dr. Damsker is confirmed to meet with the county school nurse advisory council on Tuesday, June 30 at noon. The school nurse group has been meeting every other week during the closure. Dr Damsker and a team of nurses from the Health Department will join them next week to work through questions from the group.

My best,
